

# WINGS WEEKEND

September 28, 29 & 30  
**Bowman Field**  
**Louisville, KY**

Join your fellow pilots for the fall classic of food, fun, and flying! Come and be part of the fellowship and hangar flying! Participate in the Safety Seminars, and earn a set of WINGS!

The "WINGS" program is the most tangible indicator of General Aviation safety activity that we have. **You, the Flight Instructor, are the key to this program!** As the most important link in the safety chain, we are soliciting your participation in this vital effort. Your expertise is needed to guide pilots along the path of continued proficiency and safe flying. We will be offering free dual instruction to all participants at the **WINGS WEEKEND**, and that is where **You** come in!

Ideally, we would like you to attend Friday afternoon, pretty much all day Saturday and Sunday, and give approximately nine (9) hours of dual during this period. If at all possible, you should bring a suitable aircraft with you, as many pilots will not have their own aircraft. Perhaps the FBO you are associated with could even offer a reduced rate as an additional incentive to the renter pilots.

If you cannot attend the full event or cannot bring an airplane, we still want to encourage you to participate! In previous **WINGS WEEKENDS**, the only true shortage that has been experienced has been Flight Instructors. We will need all the help we can get!

**Don't forget, your participation may qualify you for renewal of your CFI ticket and your next set of "WINGS"!**

In order to qualify for either the CFI renewal or a set of "WINGS", you will have to attend a WINGS Curriculum Meeting and one other seminar, and make yourself available for at least nine (9) hours of dual. CFI renewal is available only for un-expired CFI's.

Will you help? If you can, please fill in the blanks, refold this complete mailer so the return label is out, tape it shut, stick on a stamp and send it along. A complete, detailed information package will be sent to you shortly!

☐ YES, I'LL HELP!!

**Volunteer**  
**Flight**  
**Instructor**

Name \_\_\_\_\_  
Address \_\_\_\_\_  
City \_\_\_\_\_ State \_\_\_\_\_ Zip \_\_\_\_\_  
Daytime Phone Number (\_\_\_\_\_) \_\_\_\_\_

Check Your Qualifications: ☐ASEL ☐AMEL ☐TAILDRAGGER ☐Seaplane  
☐Glider ☐Rotorcraft/Helicopter ☐Instrument Airplane ☐Instrument Helicopter

Please indicate any aircraft you would prefer NOT to instruct in, or any that you would prefer to be limited to \_\_\_\_\_

I can bring the following aircraft for rent:

Make \_\_\_\_\_ Model \_\_\_\_\_ Rate/Hour \$ \_\_\_\_\_

I plan to attend and be available to give instruction ☐ Friday for \_\_\_\_\_ hours  
☐ Saturday for \_\_\_\_\_ hours ☐ Sunday for \_\_\_\_\_ hours.

I would like to: ☐earn a set of "WINGS", ☐renew my CFI Certificate, at the event.

There will be several Safety Seminars given over the course of the three-day event, on a variety of subjects. Come and get the latest hot info on GPS, runway incursions, and a host of other stuff as well! More details will follow in a separate mailer.

**There will be a special drawing for some Door Prizes just for Flight Instructors. All participating CFI's will be eligible for this drawing, and you need not be present to win. You *DO* have to participate, however! The drawing will be held Sunday evening.**

Remember, participation as a **Volunteer Flight Instructor** may qualify you for your next set of "WINGS", and may also qualify you for renewal of your Flight Instructor Certificate!

See inside for more details, and if you need still further information, call
